

Join us!

Improve your Dutch while playing with friends in a safe and child friendly surrounding as an after school activity. Private lessons are also possible.

For who?

Bilingual, multilingual and expat family children. We focus on children from the age of 4 to 12 who attend a Dutch basis school but speak little or no Dutch at home, or just can use an extra bit of help in the Dutch language area.

Why?

Being able to use the language of the country you live in will contribute to a sense of belonging and well being. In addition it will improve the learning performance, connecting with other children will be easier and it will avoid language problems in the future.

The NL4Kids courses are fun to attend! Just one hour per week – a fun lesson full of language games with new friends!

About NL4Kids

My name is Jasja Offereins. I am Dutch, I am married, I have a 6 year old son and I live in the centre of Amsterdam. After working for years with expat families from all over the world I now develop and teach Dutch language and culture courses (group and private), mainly for children, in the Amsterdam area. My courses stimulate know-ledge of the Dutch language in a playful and fun way.

Children will love it!

Courses

Group courses and private lessons now available

Locations

- Buurtcentrum Boomspijker (group courses)
- Your own home (private lessons)
